FOR JAC BIO-PHARMACEUTICAL TECHNOLOGIES (235.C0) STUDENTS WHO ARE PLANNING TO APPLY TO MEMORIAL UNIVERSITY

JAC students graduating from Bio-Pharmaceutical Production Technologies, 235.C0, are eligible for admission to the Bachelor of Technology (BTech) program at the Marine Institute of Memorial University. This one-year program consists of thirteen courses (39 credit hours) with 24 credit hours from required courses and 15 credit hours from elective courses.

The program is available on a full or part-time basis, and is available fully online. Full-time students can complete the program in one academic year.

Conceptually, BTech is a full length undergraduate degree program consisting of a technical component and a component intended to provide a broad societal context for the technology as well as business related skills and knowledge. The University recognizes that the requirements of the technical component are satisfied by the *John Abbott College Bio-Pharmaceutical Technologies* program.

"Application Deadline:

Fall Admission: June 30 (Official transcripts due July 15)
Winter Admission: Oct 15 (Official transcripts due Oct 30)
Spring Admission: March 15 (Official transcripts due March 30)" [i]

January 2022
